H2 Equity Partners receives "operational excellence" award for Jet Group Investment

H2 Equity Partners ("H2") are pleased to announce that they have received the "Operational Excellence" award from Private Equity International in the category lower mid-market EMEA for the investment in JET Group.

H2 received the award for its active role in supporting management in integrating three former individual companies into one strong group, optimising its manufacturing footprint, improving organic growth and realising international expansion of JET. As a result both revenue and EBITDA of the company increased substantially during H2's holding period. H2 exited JET Group successfully earlier this year.

The winners of the Private Equity International Operational Excellence Awards have been selected by a panel of industry and private equity experts across several regions. H2 aims to build on its 23-year track record to deliver strong returns for our investors and provide hands on support for our portfolio companies.
